February Highlights and Requests

Connections. What a small world we live in! While in Bremerton, Washington, we were given the contact information for a lady who used to be the translator for an independent Baptist missionary. Long story short, this was the same missionary who exhorted Jonathan, when he was a teenager, to obey God's calling upon his life to preach. We were able to meet in Mt. Vernon and Jonathan was able to reconnect with the missionary who still continues to do ministry amongst Russian-speaking people.

New Support. We have heard this month from three churches that have committed to take us on for support! One is in Virginia, one is in Idaho, and the third is a brand-new church in Washington. Currently, we have 48% of our support promised with 35% actually coming in. We're looking towards next month!

More Ministry Resources. Jonathan inherited the personal library of his mentor (Brother Skippy Horning). What has now been added to our ministry are many books and resources for soul-winning, discipleship, counseling, and Bible study. We were able to be a blessing to four different churches and ministries by equipping them with some of those books and materials.

Soul in the Balance. Please pray for a man in Yelm, WA named Damian who listened intently to the Gospel on February 13th.

Future Prospects. We see great potential for our return trip to the Northwest. Please pray for God's continued blessings.

Answer to Prayer. Jonathan was praying about whether or not we should raise support in Oklahoma and Texas since we are trying to primarily focus our support in the Northeast and Northwest, but God has answered through some interesting circumstances and we are now looking at scheduling meetings in February through the first half of March 2017 in these two states.
