March Memos

Mid-Goal Reached. We have heard from a couple of churches this month that they will be taking us on for support and that will be indicated in our reports next month. This is exciting to us since our **1-year goal** was to have at least **50%** of our support committed to us by the end of March. Praise the Lord!

Thank You. Our family would like to voice a most sincere appreciation to all of our supporting churches and financially-partnered individuals who have been used by the Lord to help put the fuel in our car, the food in our stomachs, and the clothes on our backs. We would also like to thank our home church as well for solidly standing behind us as we make progress toward Russia.

Prayer Request. Please pray for our extended family. We wish to see each relative saved and walking in a strong personal relationship with God. This has been a burden on our hearts and we would appreciate your prayers concerning it.

Weekly Reminder of the Resurrection

Have you ever been searching for something so obviously visible that you couldn't find it - like looking for your sunglasses while wearing them? If you're like me, someone has to point it out. Every week, there is a reminder to every Russian-speaking person that Jesus Christ rose from the dead. What is it? It is the day Sunday - and not churches open their doors then. The word for "Sunday" is *воскресенье* while "resurrection" is *воскресение*! The triumph of our Saviour over the grave is an inescapable part of the week. Now to just explain the hope that gives each person who is looking for the answer, but has not seen the truth yet. "How shall they hear without a preacher?"

Current Support
Green shows our current support.

Russia Fact
Russia leads the world in natural gas and crude oil production.

Memories from March

Jonathan teaching the children's Sunday School class at a missions conference in Fairmont, West Virginia.

Our family was able to work with Capitol Connection to reach out to the US Senators and Representatives on Capitol Hill.

Vivian got the privilege of meeting Patch the Pirate who was at the Awake America Conference in Maryland.

Here's Katrina's team that she went on evangelism with in New York City at Open Door Bible Baptist Church.

As part of the activities of a missions conference, we were able to visit Gettysburg and also see the Cyclorama.

Soul-winning together as a couple is always a treat. She talks to the ladies and he talks to the men.
